In this one-hour CLE, participants will receive an introduction to legal issues surrounding open-source software ("OSS") and OSS licensing. Three reasons an attorney should attend this CLE to get familiar with OSS: 1) OSS is everywhere: Companies are increasingly using open-source and releasing their own code under OSS licenses; 2) OSS legal issues are nuanced and complex, with major impact on IP that attorneys should be aware of; 3) Businesses are increasingly interested in OSS license audits and compliance and including OSS-related terms into contracts.
