How AI-Powered Analytics Can Improve Your Litigation Strategy for California State Court Litigation

Speakers

Nicole Clark
Trellis Research

Nicole Clark is a business litigation and labor and employment attorney who has handled litigation in both state and federal courts. She's worked at a variety of law firms ranging from mid-size litigation boutiques to large firms, and is licensed to practice law in three states. She has defended corporations and employers in complex class action and wage and hour disputes, as well as individual employment matters ranging from sexual harassment to wrongful termination. Additionally, Nicole is the CEO and co-founder of Trellis Research, a legal analytics platform that uses AI and machine learning to provide state trial court litigators with strategic legal intelligence and judicial analytics.

Join us for an engaging webinar as we cover how AI-driven litigation analytics enables you to analyze the behavior and history of your judge, competitive counsel, prospects, clients to gain crucial insights into litigation history and ruling tendencies. We'll show you how to leverage California state trial court data to be more efficient, more pro-active, and achieve better results for your clients. You'll learn why you need litigation analytics to get ahead.

This webinar will focus on how California state court legal teams are using AI for judicial analytics and legal research. We will highlight the dockets, tentative rulings and filed case documents available to them. We will demonstrate how to cost-effectively maximizes AI technology to gain insights into your, judges, your competitors, and your cases.

Topics

- How to Access Your Judge's Ruling History & Ruling Analytics
- How to Draft Stronger Motions, Faster
- How to Uncover Intelligence About Opposing Counsel
- How to Utilize Multi-State Trial Court (docket & ruling) Searches
