This panel, featuring in-house counsel, business leaders, and consultants from multiple sectors, will present information and opinions on environmental impacts from climate change and extreme weather. We will discuss industry and public sector response and adaptation planning for climate change and extreme weather events, including how federal, state, and local agencies, as well as industry, might improve their planning and preparation for climate change and extreme weather.

Topics

- Current realities of climate change and extreme weather events
- Predicting impacts and modeling associated with climate change and extreme weather events
- Preparing for climate change and extreme weather events
- Federal, state, and local response and adaptation planning
