Join the BASF Art Law Section for a review on the recent Supreme Court Art Law case where experts on copyright and fair use, will explain the issues involved and what happened at oral argument.

In 1984 Andy Warhol copied photograph taken by Lynn Goldsmith of the musician Prince for a series of silkscreened prints, only one of which was authorized. After Prince's death in 2016 a different print was published by Vanity Fair, and Goldsmith discovered the "Prince Series." She contacted the Warhol Foundation, the Foundation filed suit, and this fascinating fair use case began.

Three amici brief authors will explain the history of the case and the arguments presented. This is an incredible opportunity to learn about the case that will decide the future of fair use!

### Topics

- LEARN about the case before the Supreme Court discussing the use of a photograph of an iconic musician
- TOPICS include artist rights, right of publicity, right of privacy, and copyright protections
- This case will decide the future of fair use!

Chair: Kimberly Pallen, WithersWorldwide
