2023 saw the adoption and use of AI products skyrocket resulting in increased efficiencies and productivity. Use has outpaced the adoption of governance and risk management frameworks which has also driving an increase of losses and third-party claims. The panel will explore the insurance coverage issues raised by these losses and claims.

Topics

- Legal Challenges to Foundation Models: Copyright, Right of Publicity, and Privacy
- Managing AI Risk: Indemnity and Insurance
- Heightened Concerns over Automated Decision Making and Deep Fakes
- Cyber Security Threats
